288 Optical Cable Termination

Overview

The SC-H 288 Core Fiber Optic Splice Closure is an advanced solution cater to the diverse requirements of FTTA. This high-capacity closure facilitates the secure introduction, anchoring, and protection of cables while providing termination capabilities for household cables. The RM-288 Rack mount fiber. 288 singlemode fibres for high density data center distribution applications. ach ribbon shall have its own sub-unit tube for easy handling and management. The cable shall be flame. Corning® MiniXtend® HD Cables with Binderless* FastAccess® Technology are high-density micro cables that are up to 60 percent smaller and up to 70 percent lighter than standard loose tube cables and up to 20 percent smaller than standard micro cables. The panel design is based on a height of 6 rack units with a master plate to accommodate 12 LGX (12 pack) compatible adapter plates or modules. Standard panels are available in loaded and. ract.
