Integrated cable tray light

Overview

This 100mm light duty cable tray is a practical and efficient solution for light cable containment and routing. Manufactured from pre-galvanised (PG) steel, it features an integrated coupler, allowing tray lengths to slide together securely without the need for additional joining. With our cable trays with integrated ends, Trayco® is constantly looking for solutions that increase our customers' competitiveness due to their capacity, light weight (L) or ease of assembly. Choose a colour that blends in with the other interior details for a discreet and stylish installation, or go for a contrasting colour that creates dynamism in the room. Wibe's Design Trays collection. The distinctive slot pattern on Swifts cable tray provides installers with total flexibility. Available in four depths, this strong, durable system has been designed with fast-fit features. Facility lighting distribution is rarely a straightforward task once the rafters are closed and the workspace becomes congested.
