Surveillance Cable Junction Box

Overview

Junction boxes are protective enclosures designed to house electrical connections, cable terminations, and wiring intersections in CCTV and security surveillance networks. These boxes serve as critical connection points where multiple cables converge, providing a secure and organized environment. This universal junction box is suitable for your IP/POE surveillance bullet camera, dome camera, and pan-tilt cameras, bring both your indoor and outdoor cameras a solid and neat way of wire arrangement and protection. Mounting type: Surface Mount; Electric enclosure material:ABS Engineering. Unmatched Compatibility & Robust DurabilityIntroducing our security camera junction box, meticulously engineered to seamlessly accommodate a wide range of camera products available on the market. Crafted from high-quality ABS plastic, this bullet camera junction box ensures reliable performance. In this guide, we'll break down everything you need to know about powering your CCTV system, protecting your wiring, and securely mounting your cameras for optimal performance. Let's get you set up for smarter, safer surveillance. However, there are pre-drilled machine screw holes in universal mount patterns that work with most other security camera brands.
